## INTRODUCING NEWLY-DESIGNED FULL-MOTION MOUNTS, FOR TVS UP TO 37"

Our new mounts were engineered to be even stronger (supporting up to 60 lbs.) and incorporate our latest technology: Virtual Axis™ 3D. Its cup-shaped design allows the mount to fluidly move in every direction imaginable — with no loosening or tightening required. All models are available in black or silver and feature sleek aluminum construction and an aesthetic design that cleverly hides hardware. Compatible with VESA 75, 100, 200 x 100 and 200 mounting patterns.

« **Virtual Axis™ 3D** a patent-pending, cup-shaped design that allows the mount (and the TV) to move in every direction possible with fluid motion. No loosening or tightening required. And because it balances the TV's weight on itself, you can move it with the gentle touch of a finger.

« Keyholes on faceplate slide onto TV for effortless bracket alignment and easy installation — all mounting hardware included

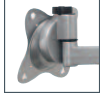

« Built in wire management system protects and conceals cables

« Decorative caps hide mounting hardware for a finished appearance

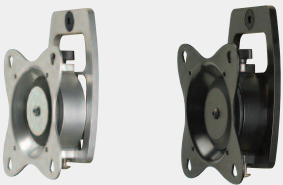

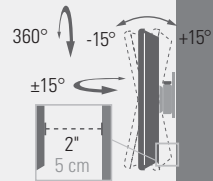

« Includes two VESA-compatible TV brackets: large TV bracket fits 200 x 200, 200 x 100 and 100 x 100; small TV bracket fits 100 x 100 and 75 x 75

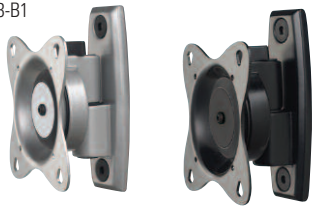

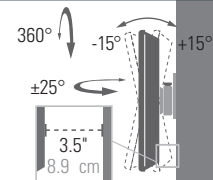

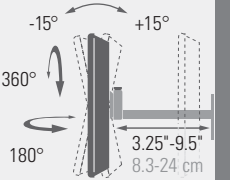

« Adjustment knob enables any size TV to tilt and swivel easily while maintaining tension for the perfect viewing angle

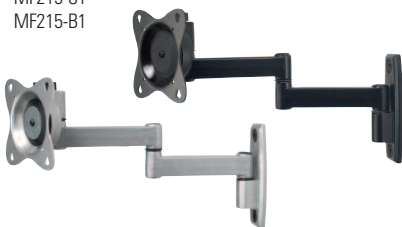

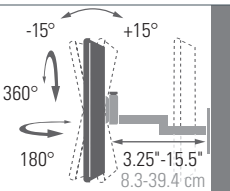

« QuickConnect™ System TV bracket slides into wall plate and secures in place with one bolt (MF202 only)

<b>MODEL</b> MF202-S1 MF202-B1  	<b>DESCRIPTION</b> Full-motion wall mount for small and medium LCD TVs; features Virtual Axis™ 3D for fluid motion
